LF AI & Data

March 9, 2021

Ibrahim Haddad, Ph.D. — Executive Director, LF AI & Data — Ibrahim@LinuxFoundation.org
Jacqueline Cardoso — Head of Program Management — jzcardoso@linuxfoundation.org
John Mertic — Director of Technical Projects — jmertic@linuxfoundation.org

LF AI & DATA

LF AI & Data

Collaborating to support an open and growing ecosystem of open source AI, data and analytics projects, by accelerating innovation, enabling collaboration and the creation of new opportunities for all the members of the community

https://lfaidata.foundation

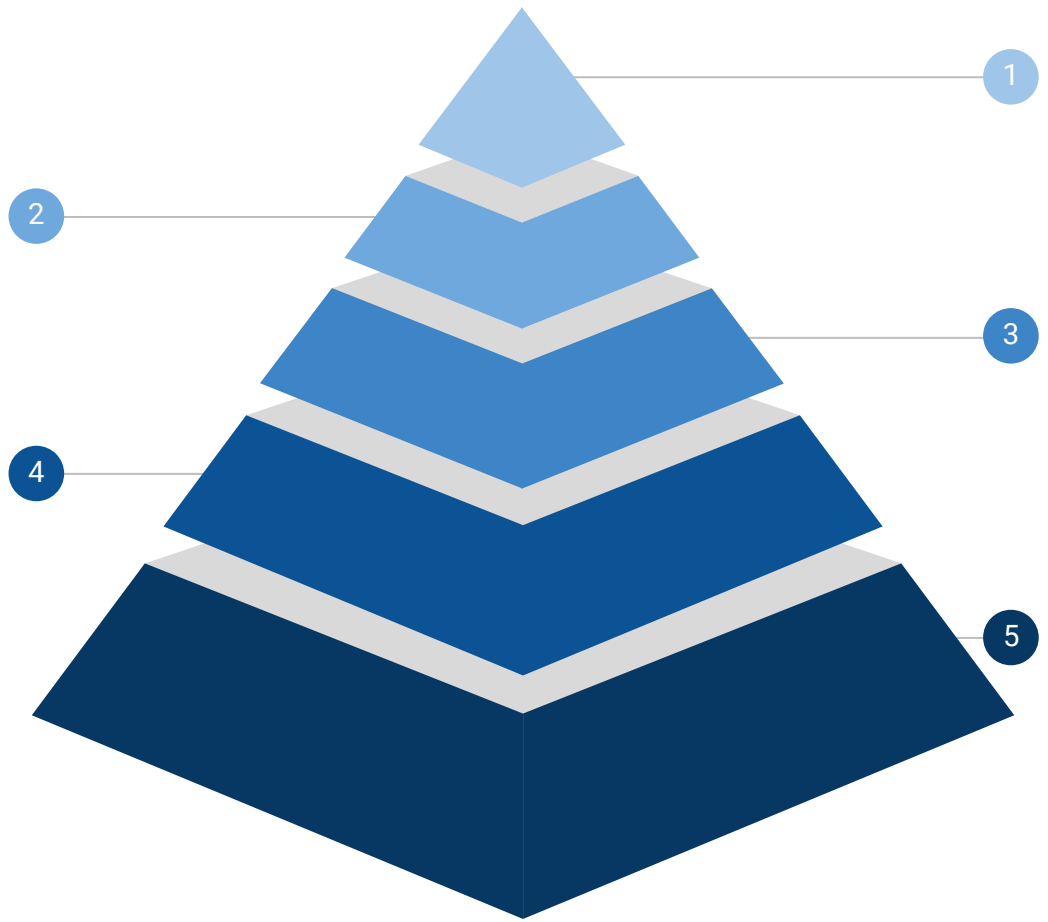
Ecosystem Overview

LF AI & DATA

Open Source AI & Data - Ecosystem Challenges

Managing projects assets
As project grows, it is unclear who should own legal and administrative tasks that are essential to the health of the project

Governance challenges
No formal governance, governance favors the creators of the project, project backer dominating dev and governance



Glass ceiling for project investment and adoption
in the absence of a fair governance and safe haven for the project's assets

Developed for a specific product needs
The open source spinoff is a result of wanting to build an ecosystem and collaborate on building a platform

Fragmentation
Lack of integration
Lack of cross pollination across projects

Enter LF AI & Data

LF AI & DATA

What is LF AI & Data?

- Non-profit
- Open source collaborative effort focused on AI & Data
- Hosted at the Linux Foundation
- Focused on supporting open source AI & data projects and accelerating innovation and their trajectory to adoption

Open Source offers *unique* benefits to AI & Data

Fairness

Methods to detect and mitigate bias in datasets and models, including bias against known protected populations

Robustness

Methods to detect alterations/tampering with datasets and models, including alterations from known adversarial attacks

Explainability

Methods to enhance understandability and interpretability by persona/roles in process of AI model outcomes/decision recommendations, incl ranking and debating results and decision options

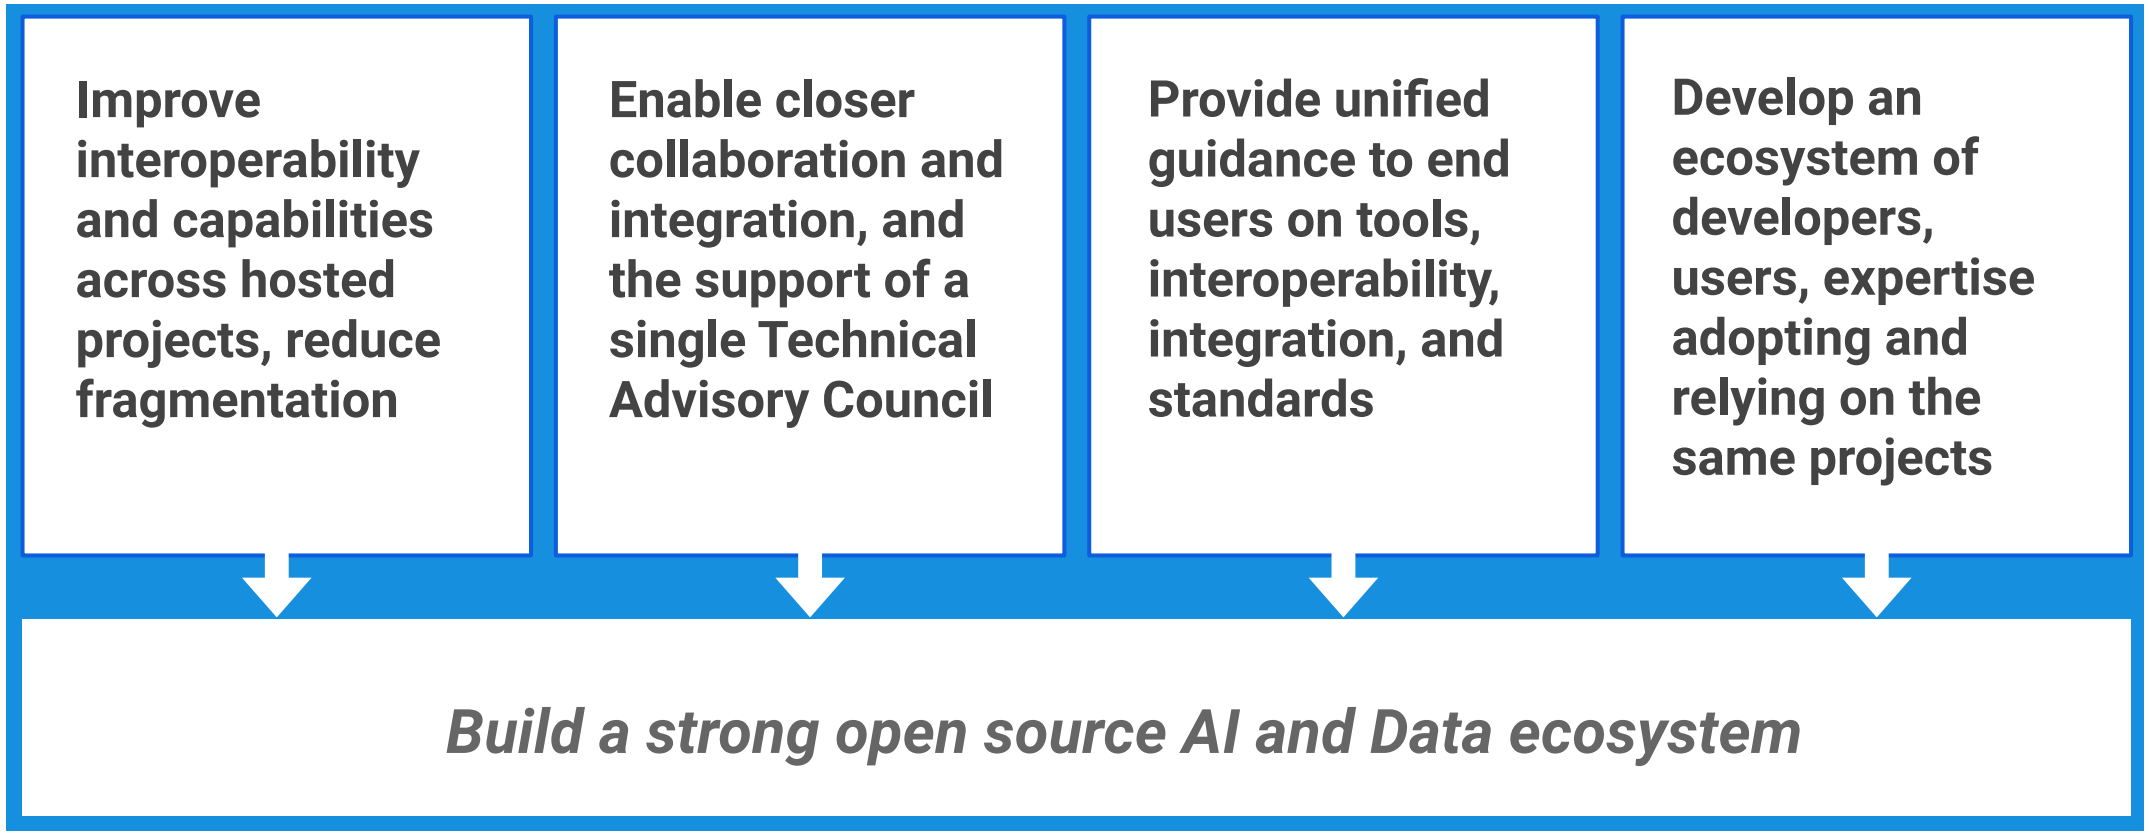
Lineage

Methods to ensure provenance of datasets and AI models, including reproducibility of generated datasets and AI models

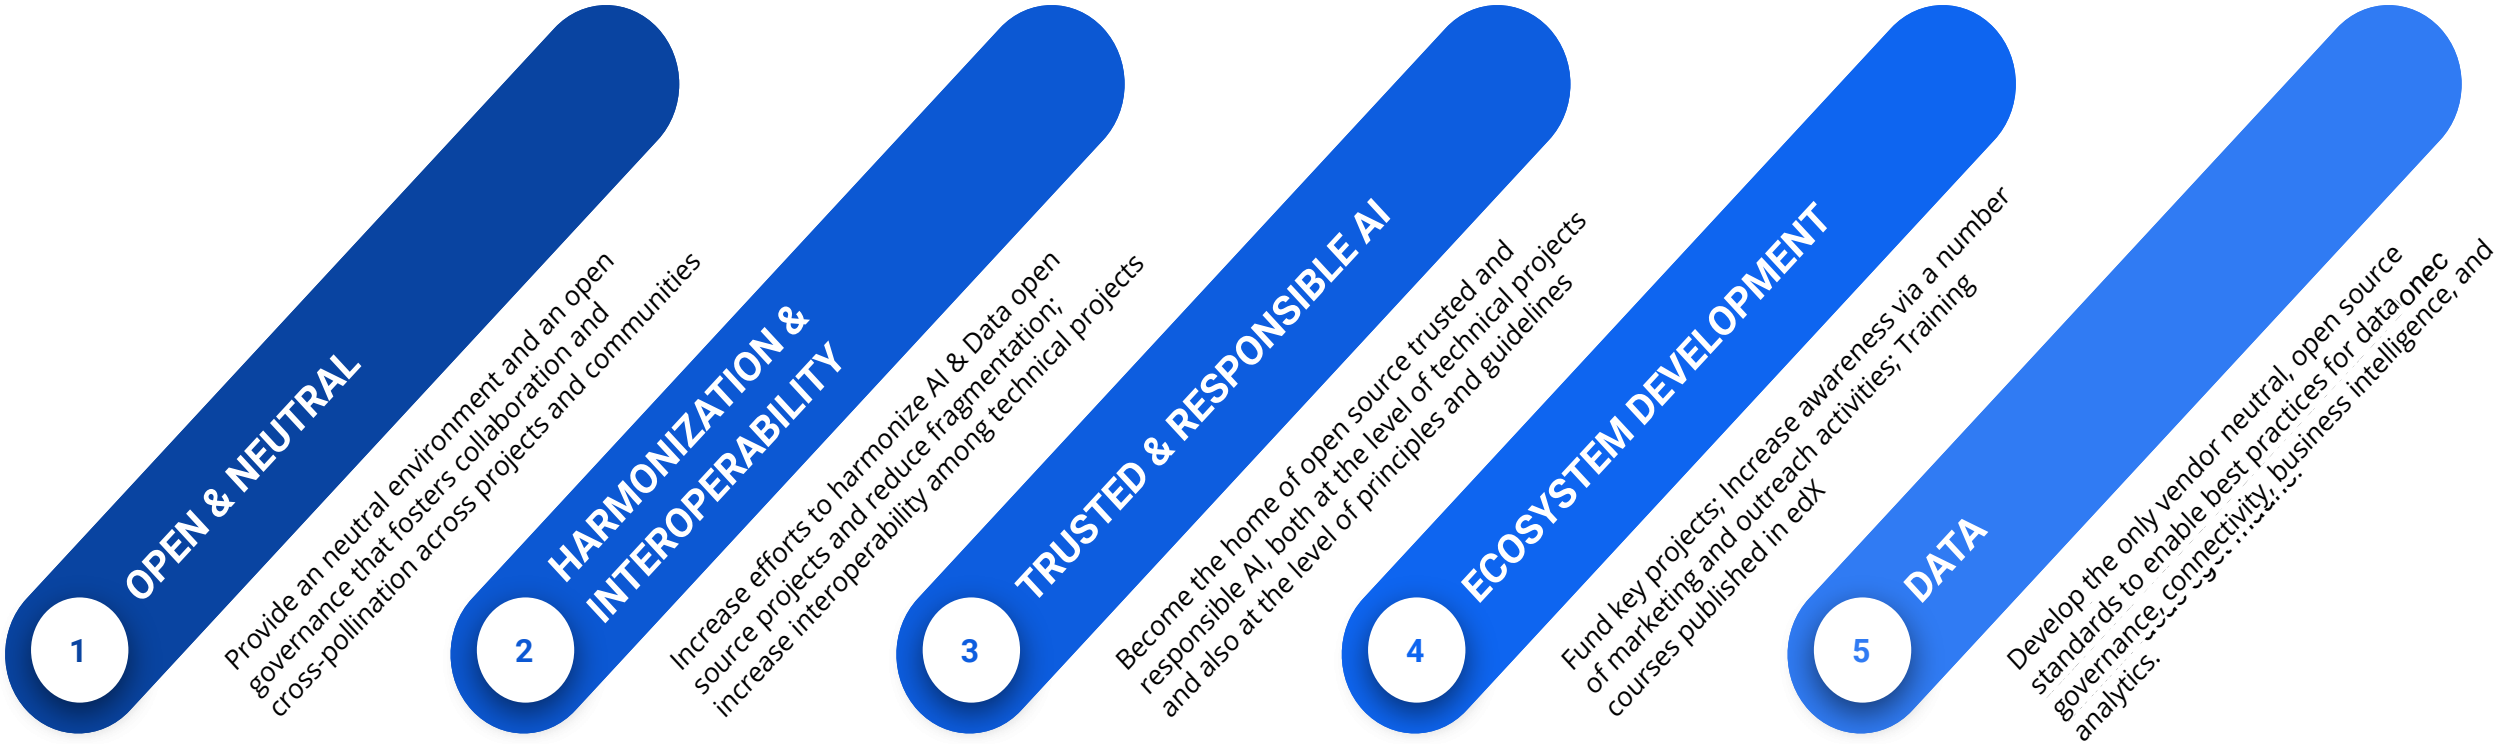
Open Data

Methods to clean, sort, tagg and track provenance and a governance structure for doing these things

Goals of LF AI & Data



Why is LF AI & Data important?



LF AI & Data Growth

- Launched in 03/2018 with 9 members and 1 hosted project
- +3 projects in 2018
- +5 projects in 2019
- +15 projects, +16 members in 2020
- Currently supported by 46 member companies
- >2000 subscribers to our main mailing list

Very active and growing developer community

Jan 1- Dec 31, 2020

8.92K Contributors	217K Contributions	100.03K Commits	358 Repositories
6.93K Emails	34.65K PRs/Changesets	2.08K Slack messages	22.54K Total issues

Structure and Governance

Foundation Governance
Funding effort to support hosted technical projects

Technical Coordination, New Initiatives

Hosted Projects

Projects have their own independent technical governance

Projects

https://landscape.lfai.foundation/card-mode?project=hosted

Incubating Projects

- TAC committee is responsible to voting in new incubation projects.
- The TAC meets bi-weekly and generally booked 4-6 weeks in advance.
- Proposing projects for incubation

Companies hosting projects in LF AI & Data

Why incubate with us?

Building large, sustainable ecosystems requires collective resources

Events - We gathered over 45,000 attendees from over 12,000 organizations across 113 countries in 2019.

Legal - We manage IP for the world's most important tech and have one of the world's top open source legal teams in house.

Training - We trained millions of students (free and paid online), online skills certification, and on-site e-learning.

Certification - We designed and executed software and hardware testing and certification programs.

Developer Marketing - We have the largest share of voice of any open source foundation and a proven method to build large scale developer programs.

Developer Operations - We host the infrastructure that develops the world's largest software communities and provide release management, IT ops, and support.

Application Security- our projects are regularly audited and pen tested. We offer bug bounties, dependency analysis, and code scanning.

What does it mean to be a Foundation project?

- **A neutral home for the project** increases the willingness of developers from organizations to collaborate, contribute, and become committers
- **Endorsement by members of the LF AI & Data Technical Advisory Committee** (TAC) is an independent signal of the quality of your project
- **Open and neutral governance model**
- **Program and project management services**
- **Access to full-time staff** who are eager to assist your project
- **Access to marketing and communications services** to support community and ecosystem engagement
- **Access to a full range of events services** to help the project build and grow a community around it
- **Legal support** ranging from hosting the trademark in a neutral organization to CLA and DCO system integration with GitHub, regular compliance scans, etc.
- **Presence across multiple geographies** including China and Japan

Strong Marketing/PR/Community Effort

LF AI provides marketing services to support community and ecosystem engagement.

37 announcements in 2019

61 announcements in 2020

- Events announcements and promotion
- Project release
- Project incubation
- New members joining
- Project cross collaboration
- Invited posts

LF AI provides event and community ecosystem building services.

LF AI Summit
Co-located with the Open Source Summit EU

LF AI TIMELINE 2018-2019

MARCH 2018

- LF DEEP LEARNING LAUNCH
- Acumos AI

MAY 2018

- ACUMOS AI CHALLENGE

JUNE 2018

- PROJECT CONTRIBUTION PROCESS & LIFECYCLE DOCUMENT

JULY 2018

- ACUMOS AI DAY FRANCE

AUGUST 2018

- Angel
- EDL Elastic Deep Learning

NOVEMBER 2018

- ACUMOS AI DAY NYC
- ACUMOS "ATHENA" RELEASE

DECEMBER 2018

- Horovod
- LF AI Landscape LAUNCH

JANUARY 2019

- yp

FEBRUARY 2019

- GETTING INVOLVED GUIDE

MARCH 2019

- LF AI MISSION & GOALS

MAY 2019

- LF AI REBRAND

AUGUST 2019

- ML WORKFLOW COMMITTEE
- ACUMOS & IBM FAIRNESS 360 INTEGRATION
- LF AI TRACK OSS NA
- LF AI MEETING SAN DIEGO

SEPTEMBER 2019

- PROJECT CONTRIBUTION PROCESS & LIFECYCLE DOCUMENT UPDATE

OCTOBER 2019

- TRUSTED AI COMMITTEE
- LF AI SUMMIT EU
- ADLIK
- ANGEL MEETUP SHENZHEN
- ONNX
- LF AI DAY PARIS
- LF AI DAY SHANGHAI

NOVEMBER 2019

- ONNX COMMUNITY MEETING
- KUBECON SHANGHAI

DECEMBER 2019

- sparklyr
- MARQUEZ
- ANGEL GRADUATION

TECHNICAL PROJECTS | FOUNDATION | COMMUNITY

Why these top companies host with LF AI & Data?

The Linux Foundation is the leading commons for community assets

- The Linux Foundation (LF) is a recognized and respected brand and can activate communications across tech, business, and social media channels.
- The LF is the largest open source foundation, providing management of community assets for over 400 projects:
  - Over 3,400 source code repositories.
  - Over 700 trademark registrations and applications, plus hundreds of unregistered marks.
  - Over 700 project domains and DNS records.
  - Over 12,000 Contributor License Agreements signed for project communities that decide to require one.
- The LF offers neutral sponsorship for managing fundraising.
  - Over 1,600 unique member company relationships.
- Our communities raised over $100 million in 2019 via 6,500+ invoices.
  - Our communities spent funds in 180,000+ separate transactions in 2019.
  - The LF reports its audited financials to its board.

We all are aware of the advantages of open source ...

Access to source code	**Ability to customize**	**Rapid development**	**Peer review**	**Improved quality and security**
Reduce dev time and TTM	**Flexible licensing model**	**Community driven innovation**	**Influence roadmap via participation**	**Transparent technical discussions**
