 LF AI & DATA

LF AI & Data

Collaborating to support an open and growing ecosystem of open source AI, data and analytics projects, by accelerating innovation, enabling collaboration and the creation of new opportunities for all the members of the community

<https://lfaidata.foundation>

Ecosystem Overview

Open Source AI & Data - Ecosystem Challenges

Enter LF AI & Data

 **LF** AI & DATA

What is LF AI & Data?

- › Non-profit
- › Open source collaborative effort focused on AI & Data
- › Hosted at the Linux Foundation
- › Focused on supporting open source AI & data projects and accelerating innovation and their trajectory to adoption

Open Source offers *unique* benefits to AI & Data

Fairness

Methods to detect and mitigate bias in datasets and models, including bias against known protected populations

Robustness

Methods to detect alterations/tampering with datasets and models, including alterations from known adversarial attacks

Explainability

Methods to enhance understandability and interpretability by persona/roles in process of AI model outcomes/decision recommendations, incl ranking and debating results and decision options

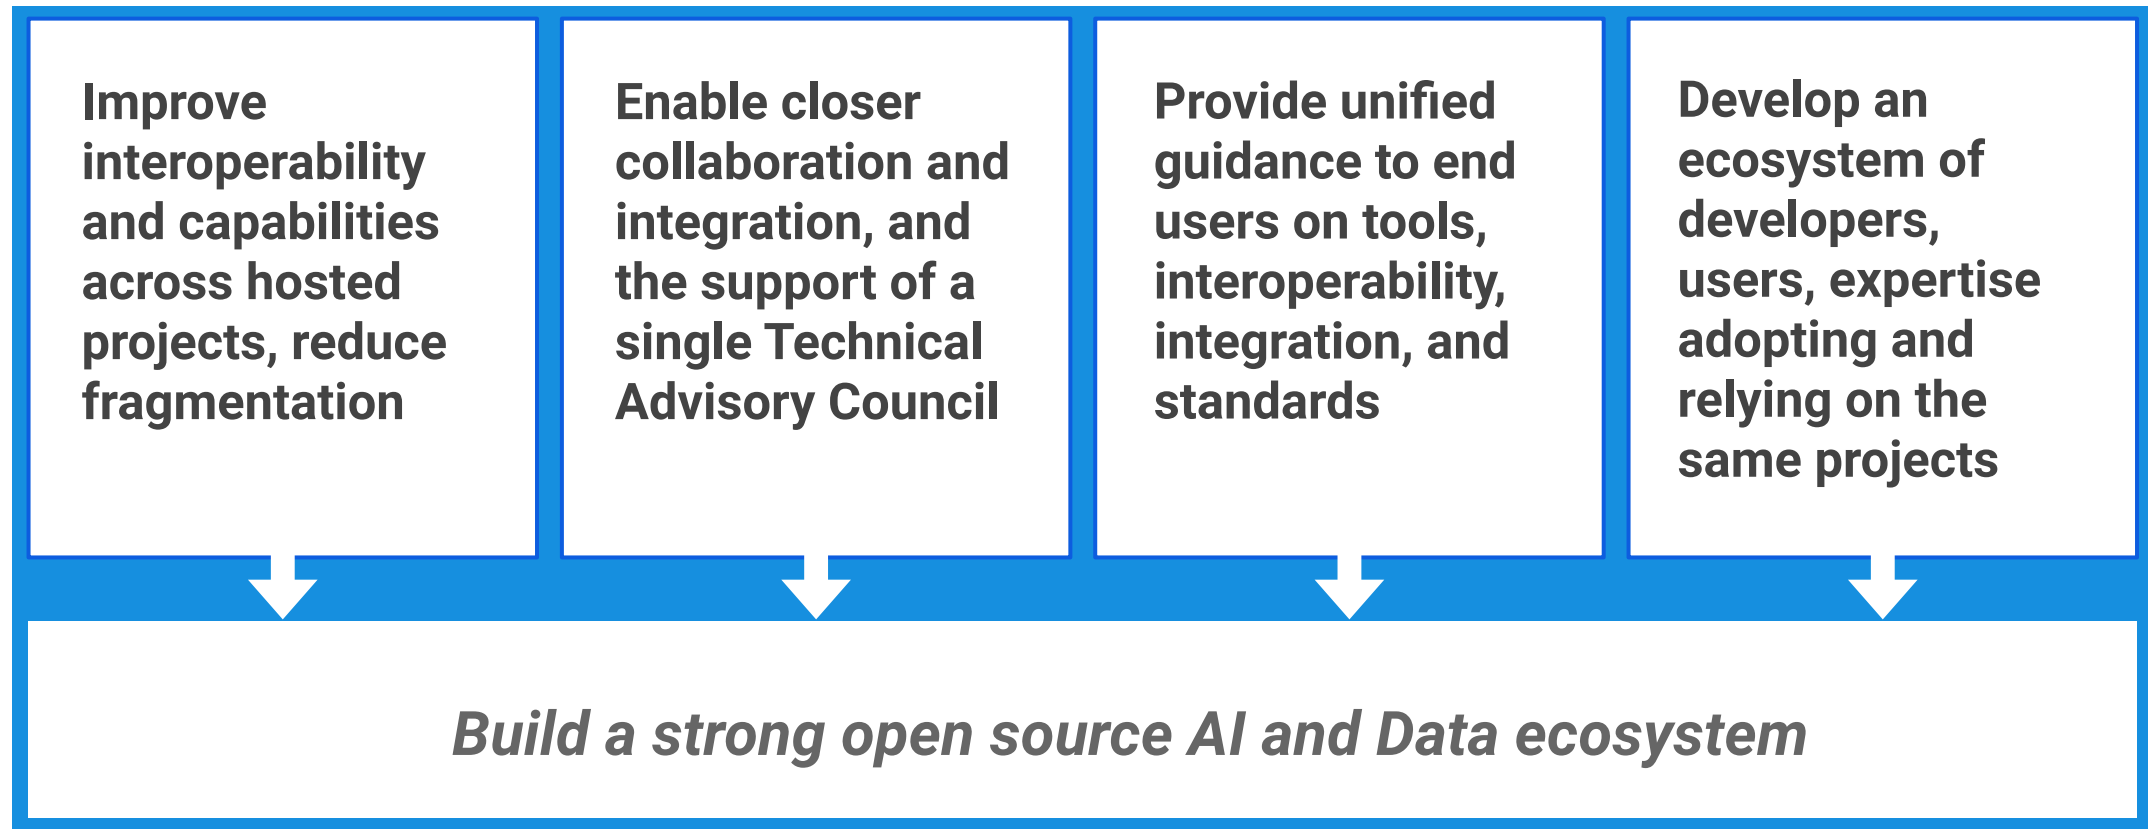

Lineage

Methods to ensure provenance of datasets and AI models, including reproducibility of generated datasets and AI models

Open Data

Methods to clean, sort, tag and track provenance and a governance structure for doing these things

Goals of LF AI & Data

Why is LF AI & Data important?

1

OPEN & NEUTRAL

Provide an neutral environment and an open governance that fosters collaboration and cross-pollination across projects and communities

2

HARMONIZATION & INTEROPERABILITY

Increase efforts to harmonize AI & Data open source projects and reduce fragmentation; increase interoperability among technical projects

3

TRUSTED & RESPONSIBLE AI

Become the home of open source trusted and responsible AI, both at the level of technical projects and also at the level of principles and guidelines

4

ECOSYSTEM DEVELOPMENT

Fund key projects; Increase awareness via a number of marketing and outreach activities; Training courses published in edX

5

DATA

Develop the only vendor neutral, open source standards to enable best practices for dataonec governance, connectivity, business intelligence, and analytics.

LF AI & Data Growth

- › Launched in 03/2018 with 9 members and 1 hosted project
- › +3 projects in 2018
- › +5 projects in 2019
- › +15 projects, +16 members in 2020
- › Currently supported by 46 member companies
- › >2000 subscribers to our main mailing list

Very active community

Incubating Projects

- › TAC committee is responsible to voting in new incubation projects.
- › The TAC meets bi-weekly and generally booked 4-6 weeks in advance.
- › [Proposing projects for incubation](#)

Why incubate with us?

Building large, sustainable ecosystems requires collective resources

Events - We gathered over 45,000 attendees from over 12,000 organizations across 113 countries in 2019.

Legal - We manage IP for the world's most important tech and have one of the world's top open source legal teams in house.

Training - We trained millions of students (free and paid online), online skills certification, and on-site e-learning.

Certification - We designed and executed software and hardware testing and certification programs.

Developer Marketing - We have the largest share of voice of any open source foundation and a proven method to build large scale developer programs.

Developer Operations - We host the infrastructure that develops the world's largest software communities and provide release management, IT ops, and support.

Application Security- our projects are regularly audited and pen tested. We offer bug bounties, dependency analysis, and code scanning.

What does it mean to be a Foundation project?

- › **A neutral home for the project** increases the willingness of developers from organizations to collaborate, contribute, and become committers
- › **Endorsement by members of the LF AI & Data Technical Advisory Committee (TAC)** is an independent signal of the quality of your project
- › **Open and neutral governance model**
- › **Program and project management services**
- › **Access to full-time staff** who are eager to assist your project
- › **Access to marketing and communications services** to support community and ecosystem engagement
- › **Access to a full range of events services** to help the project build and grow a community around it
- › **Legal support** ranging from hosting the trademark in a neutral organization to CLA and DCO system integration with GitHub, regular compliance scans, etc.
- › **Presence across multiple geographies** including China and Japan

Strong Marketing/PR/Community Effort

LF AI provides marketing services to support community and ecosystem engagement.

37 announcements in 2019

61 announcements in 2020

- › Events announcements and promotion
- › Project release
- › Project incubation
- › New members joining
- › Project cross collaboration
- › Invited posts

LF AI provides event and community ecosystem building services.

LF AI TIMELINE 2018-2019

LF AI & DATA TIMELINE 2020-2021

Why these top companies host with LF AI & Data?

The Linux Foundation is the leading commons for community assets

- The Linux Foundation (LF) is a recognized and respected brand and can activate communications across tech, business, and social media channels.
- The LF is the largest open source foundation, providing management of community assets for over 400 projects:
 - Over 3,400 source code repositories.
 - Over 700 trademark registrations and applications, plus hundreds of unregistered marks.
 - Over 700 project domains and DNS records.
 - Over 12,000 Contributor License Agreements signed for project communities that decide to require one.
- The LF offers neutral sponsorship for managing fundraising.
 - Over 1,600 unique member company relationships.
- Our communities raised over \$100 million in 2019 via 6,500+ invoices.
 - Our communities spent funds in 180,000+ separate transactions in 2019.
 - The LF reports its audited financials to its board.

We all are aware of the advantages of open source ...

**Access to
source code**

**Ability to
customize**

**Rapid
development**

Peer review

**Improved
quality and
security**

**Reduce dev
time and TTM**

**Flexible
licensing model**

**Community
driven
innovation**

**Influence
roadmap via
participation**

**Transparent
technical
discussions**
